

**RIP David Willis**

15 May: With the deepest of regrets, we announce the passing of David Willis.

Our first contact with East Preston & Kingston BC came through David, shortly after East Preston joined us in 2021 during the difficult Covid years. Even in those uncertain times, David's warmth, steadiness, and willingness to help made an immediate impression.

He quickly became a valued and trusted part of our community. David soon joined the Association Management Committee as Deputy Safeguarding Officer, a role he carried out with care, diligence, and a genuine sense of responsibility. His commitment and capability were clear to all, and he would have become our Deputy Chairman had ill health not intervened.

In later years, David retired to the Isle of Wight to be closer to his family. Despite the distance, he remained in touch, and I was fortunate to meet with him regularly at the Trouville Hotel. Those conversations were always warm, thoughtful, and filled with his characteristic good humour.

David will be remembered for his kindness, his service to the Association, and the friendships he formed along the way. May he rest in peace and may his family and all who knew him find comfort in the memories he leaves behind.
