

VENUE CHECKLIST

Fire Safety: Check fire exits are clearly marked and accessible. This is a requirement for all public / village halls.

Make sure newcomers and visitors are made aware of all fire exits.

Electrical Safety: Check electrical equipment is safe. All public / village halls must have electrical equipment checked at regular intervals.

Site Layout: Check the layout of the venue to avoid pinch points and ensure safe access to all areas.

Welfare Facilities: Check toilet, washing facilities and all floor surfaces are free from slippage. Ensure all newcomers and visitors are advised of the location of the toilet facilities.

Ventilation and Lighting: Ensure proper ventilation and lighting to prevent overheating and ensure visibility.

First Aid: Check first aid box availability. Ensure any injuries are reported in the accident book.

Playing Conditions: Remind all bowlers of the need to declare weighted shots verbally and visibly when bowling with weight. Ensure players at the head are aware and that adjacent mats / spectators are advised before bowling such a wood.
